Fortunately, the publisher revealed the responses online. To unlock these cars, you will have to complete the following challenges in Flatout mode or complete career levels (all cups on a certain page for its category) by obtaining a gold rating: Derby Fedora X7 - Challenge 11 Shoven Doop - Career Derby Level 1 Gov'nor 500 - Challenge 7 Quarterback - Career Derby Level 1 Preacher - Career Derby Level 2 Anger M200 - Challenge 5 Ice Machine - Career Derby Level 2 Classic Suburbia T.J. - Challenge 16 Cookie - Career Classic Level 1 Alpha R477 - Career Classic Level 2 Words 4000 - Challenge 21 Blackwood Turbo - Career Classic Level 2 Rage 72 - Career Classic Level 2 Words 4000 - Challenge 21 All Stars Big House '52 - Career All Star Level 2 Juggernaut 5 - Challenge 33 Fin Du Monde - Career All Star Level 1 Gremlin DS - Challenge 28 Coffin 46 - Career All Star Level 1 Frenzy M600 - Challenge 42 Rocket Sorbet Van - Career All Star Level 2 By : Samantha Lienhard Thank you for your vote! Stunt Mode Comment Mini-Games Hints In addition to the main events, there are also several mini-game events available in Stunt mode, where you try to complete certain games by performing stunts. Stunt mode mini-games are as follows; Total destruction (12,000 points for gold), Cup Pong (600 points for gold), High Jump (100 meters for gold), Rings of Fire (1400 points for gold), Stone Jump (1000 points for gold), Curl (275 points for gold), Baseball (556 points for gold), Golf (400 points for gold), Finnish Pins (25 points for gold), Football (300 points for gold), Billiards (300 points for gold) , and Long Jump (350 meters for gold). Although most of these aren't events that traditionally involve driving, they're adapted here so you have to throw your driver from the car in specific ways to earn points. The more points you earn or the better the distance you reach, depending on the game, the better your leaderboard will be at the end. The video below includes gold scores for each stunt mini-game, so you have problems with one of them, take a look to see what techniques can help. Di: Samantha Lienhard Thank you for your vote! Comment During this phase I will make your way Career. There are 3 different classes (Derby, Classic and AllStar) that consist of 8 cups, 4 time trials and 4 Arena survivors each. At first there is only one unlocked cup and you need to get at least the bronze in this cup to unlock the next one. Keep in mind that you need to earn gold in each event to unlock Speed Junkie. Also focus on reaching the podium in 10 consecutive races to unlock on the podium. Under Road Attack you can find a video for all time trials. For more tips on this mode you will be asked to go to Tips & Strategies. FlatOut mode consists of 42 challenges divided into Stunt, Beat the Bomb, Carnage, Deathmatch, and Keep the Flag. The hardest ones are definitely Beat the Bomb, as you have very limited time to reach the next checkpoint and acrobatics. Not everyone is available from the beginning. The more points you earn in those challenges, the more unlocked they will be. Again, you need to get gold in all of them. Check out Tips & Strategies for general tips on this mode and Stuntman Master for a video that should help you get gold in all stunts and Lightning Master for a video of all beat the bomb races. After you finish Career and FlatOut mode, all cars must be unlocked and ready to purchase. Unfortunately career is the only way you earn money and you won't have enough after completing each event to buy all the cars. The fastest ways to earn money would be to play the Ace Of Race AllStar Cup or the Corrosive Liquids Storage ICP stopwatch. As soon as you have enough money, buy all the remaining cars and upgrade an AllStar car to the max if still needed. Now I should have got most of all the trophies already. The trophies listed below are the ones you may have missed. After unlocking them, you should have a new gloss. Cups consist of normal races and some races in Assault mode. After each race you get points depending on your position at the end of the race. The maximum is 12 Points, for the first place, and the minimum is 1, to reach the last place. You have to be the first at the end of a cup to win it. The only difference between races and assault mode is that you have weapons in the latter. Don't waste time fighting your opponents in both modes. Instead, become a leader as soon as possible. Use your push wisely. If you stimulate too much, you will crash for sure! It is better to choose a car at high speed, acceleration and handling for these races. These events are different from racing. You'll be in the arena and fighting your opponents again. You must be the last survivor to win these events. A car with high durability and durability is recommended. At first he tries to stay out of trouble. Let the opponents take each other out. Eventually you can start destroying them. Keep in mind that you have to hit an opponent every 45 seconds or you will be eliminated. You have to beat the target time. That's why you should choose a car with a high top acceleration and handling. Having a car with high nitro does not help, as you can not increase in these races. There are also no opponents in this mode. If you're struggling with these, check out Road Attack for a video. FlatOut ModeStunts can be quite challenging, especially if you can't figure out the right technique. Expelling the driver at the correct angle is very important. Keep in mind that when your driver is in the air, you can check it out and give it an additional boost with. If you have a problem, go to Stuntman Master. There's a video that shows you how to beat all the stunts. This mode is also quite difficult. You have very limited time to switch between checkpoints. If you can't do it in time, you're going to explode. The trick is to wisely use your push and try to avoid hitting walls and obstacles as much as possible. If you crash, you can restart the race immediately as crashing will cost you too much time. Go to Lightning Master for a video that shows you how to beat the bomb. This mode is all about damage. The more damage you do by hitting opponents or breakable items, the more points you'll earn. You'll also get a few points and extra time every time you reach a checkpoint. If you are in one of the last places, your push will increase much faster and if you are in the top places, you will have a higher multiplier. To reach the target score it is better to hit your opponents by staying in one of the best places to get a high multiplier. The highest multiplier is 5 (when you're in the lead) and you should aim for a multiplier of at least 4. At the beginning of each race stay still for a short time. This will quickly increase your push, you can hit your opponents at full speed. Try to hit as many opponents as possible as you move to the top. This will give you a huge score, especially at the beginning. Next try to stay below the top 3, to get a high multiplier. Each checkpoint you reach will give you additional points and time. It's like Arena Survivor in your career, but this time you're not out when you destroy yourself. You will regenerate every time you are destroyed. For gold you have to reach 50,000 points in these events. Try to take out opponents as much as possible for big points. There are also power-ups that will help you increase your score. Basically the same as Deathmatch but with a flag. Earn bonus points for flag pickup and retention. It is better to focus on destroying your opponents to try to get the flag. Special thanks FinalAn\_VII for taking this issue forward. First of all you need to unlock all the cars by getting Lightning Master and Speed Junkie. After that you need to earn enough money to buy them all. In total you will need at least a million cash (depends on how much you have invested in updates during your career) to buy them all. This will be a problem, since money can only be earned in career. The easiest way to earn money is to replay the Ace of Race AllStar Cup, which will give you at least 30,000 if you win the full cup, or the ICP corrosive liquid storage time course, which will give you 5,200 each time you beat the golden time. The stopwatch is the fastest way. You'll easily beat the golden time with a slightly updated car in about 2 minutes (including loading time). However, you will still need a few hours to earn enough money.
